

Township of St. Clair

Public Meeting Notice

Water and Wastewater Rates

The Council of the Township of St. Clair will hold a public meeting in the Council Chambers at the St. Clair Civic Centre, Monday, February 1st, at 6:40 p.m. to consider the passage of a By-law to establish water and wastewater rates for 2016.

The proposed rates would result in an increase for a typical residential water only customer of approximately \$1.50 per quarter (1.6%). The increase for a typical residential water and wastewater customer would be approximately \$13.35 per quarter (5.9%). Commercial and industrial rates would increase by comparable percentages. These proposed increases are primarily due to increased maintenance, operations, regulatory compliance and capital expenditures in the Township Water System and Wastewater Collection and Treatment Systems.

Please contact the Public Works Department, St. Clair Civic Centre, at 867-2125 for more information.
