

Lambton based seniors' care advocacy group, Navigating Senior Care. Lambton, (NSCL) will be holding a series of meetings in the county during October and November, to hear from seniors, their families and others concerning what is needed to allow seniors to remain in their homes and communities.

Rev. Margaret Bell, one of the founding NSCL members, advises that a provincial government Ministry of Seniors Affairs grant allows these meetings to be organized and take place.

On Wednesday, October 10 in Pt. Lambton Community Hall located at 566 Stoddart Street, area residents with an interest in this, whether a senior, a family member or an interested friend, are invited to come and participate.

Complimentary sandwiches and coffee/tea will be served. Other meetings will be held in Alvinston's Hope United Church Hall on October 3, in the Dawn- Euphemia Community Hall in Florence on Wednesday, October 24 and in Petrolia at the YMCA on Wednesday November 14. All meetings begin at 11:00 am..

In total there will be 8 meetings throughout the county.

"Lambton County has a much higher percentage of seniors: 22% compared to 17% provincially. We hope all those interested and affected will come and participate in order to assist us to get an accurate picture of the needed supports for seniors in the county.", concluded Rev. Bell
