**In every home there are products that need special care.  
You'll recognize them by these warning signs.**

When you use these hazardous products, you use them carefully. When you don't need them anymore, you should dispose of them just as carefully. That's what Household Hazardous Waste Day is all about

- an opportunity to clear potentially dangerous waste out of your home and protect our environment - water, land, and air - at the same time. If hazardous products are thrown in the regular garbage, they can injure sanitation workers

and cause long-term environmental problems. Bring your Household Hazardous Waste to the special depot, and it will be dealt with by experts, at no cost to you.

- ALSO ACCEPTED:** Sharps (Hypodermic Needles)  
**NOT ACCEPTED:** PCB's, commercial, industrial or radioactive wastes, tires, explosives (flares, ammunition).  
**PLEASE NOTE:** For safety reasons, residents are asked to segregate lithium batteries from all other battery types prior to drop-off.

**\*\*\* Due to COVID-19 concerns the event planned for March 28, 2020 has been cancelled \*\*\***
